

Important GM Update

Restaurant Opening - April 8th

Good Morning Members:

As I'm sure everyone is now aware, Alberta has moved back into Phase One of our Provincial COVID restrictions. This step back does not impact our set of rules that we follow on the golf course or in our Golf Shop, but it does, and will have an impact on our restaurant operations.

Regarding service in our restaurant, the bad news is that we are currently limited to curbside takeout and outdoor service only. We are unable to provide any indoor dining at this time. The good news is that we have ample space on our patio, both at the Clubhouse and Concession, and we have the ability to stretch the footprint of our service as we see fit and as needed.

We will be opening the restaurant today (Thursday, April 8th) and tomorrow (Friday, April 9th) from 11:30 am to 7:00 pm and offering our [Winter Menu](#), as well as a [Build Your Own Pasta Menu](#) and beverage services outside under the heaters. You are more than welcome, and we would encourage our members to **phone 780-975-9781 to place curbside pick-up orders.**

With only being able to serve outside and the pending weather over the weekend and early next week, **we have decided to close the restaurant from April 10th – April 14th, and re-open with our [Full Menu](#) on April 15th.** Upon the golf course opening, if you are ever planning to come to the Club just to dine, we ask that you call ahead and book a reservation due to the limited number of tables available to accommodate spacing requirements.

The opening of the short game area is not too far off, and we are anticipating close to 130 members per day (on nice days) using our practice facilities. Please be sure to stop by the patio and enjoy the heaters while having a beverage or appetizer; any curbside takeout is also greatly encouraged and appreciated.

Our Food & Beverage team is very excited and looks forward to making the patio experience the best it can be and create an environment where you feel safe!

Sincerely,

[Scott Hippe](#)

General Manager/COO
